## EDUCATION

|                                                                                                                    |                            |
|--------------------------------------------------------------------------------------------------------------------|----------------------------|
| <b>KALINGA INSTITUTE OF INDUSTRIAL TECHNOLOGY</b><br><i>B.Tech, Computer Science and Communication Engineering</i> | 2021-Present<br>CGPA: 8.24 |
| <b>BHARATIYA VIDYA BHAVAN , HALDIA</b><br><i>CBSE, West Bengal</i>                                                 | 2019-2021                  |
| <b>THE ASSEMBLY OF GOD CHURCH SCHOOL , HALDIA</b><br><i>ISCE, West Bengal</i>                                      | 2010-2019                  |

## COURSEWORK

**Courses:** Data Structures and Algorithms (C++) , Object Oriented Programming (C++) , DBMS , Software Engineering , Cloud Computing , Data Analytics

## SKILLS

**Languages:** C/C++, SQL, Html, Css, Python, Java, Javascript  
**Developer Tools:** VS Code , Figma, Excel, Power Bi  
**Soft Skills:** Time Management, Teamwork, Problem-solving, Documentation

## PROJECTS

- |                                                                                                                                                                                                                                                                                                                                                                                                                                              |                     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| <b>SmartAG</b>   <i>IoT Based Smartagriculture</i>                                                                                                                                                                                                                                                                                                                                                                                           | Jan 2024 - Jul 2024 |
| <ul style="list-style-type: none"><li>Developed a real-time crop monitoring system using IoT sensors to optimize irrigation schedules.</li><li>Integrated the system with a cloud-based platform for remote monitoring and data analysis.</li><li>Contributed in the Frontend Part of the App such as using Dart and Figma.</li></ul>                                                                                                        |                     |
| <b>Grofers Ecommerce Sales Dashboard</b>   <i>Dashboard for Company</i>                                                                                                                                                                                                                                                                                                                                                                      | Jul 2024 - Aug 2024 |
| <ul style="list-style-type: none"><li>Integrated data from various sources, building data models, and creating interactive visualizations and reports using Power BI.</li><li>Dashboard provides real-time insights into sales performance, identify trends, and forecast future sales.</li><li>Dashboard allow sales teams to drill down into specific products, customer segments to gain a dee understanding of sales patterns.</li></ul> |                     |

## EXPERIENCE

- |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                       |
